### **Wayfarers State Park Forestry Project**

Montana Fish, Wildlife & Parks (FWP), Region One, has completed an environmental assessment (EA) for Wayfarers State Park (T27N, R20W), Flathead County, for the purpose of completing a forestry project involving removal of hazardous trees; opening the understory to promote health of ponderosa pine; reducing stress on trees due to competition for light, water, and nutrients; and reducing fuel loads.

There were no changes to the draft EA; therefore, the draft becomes the final EA, with Alternative C – completing the forester's prescription as recommended – being the preferred alternative. The final EA and decision document may be viewed at or obtained from FWP, Region One, 490 N. Meridian Road, Kalispell, MT 59901.
